COMPETITIVENESS ON THE MARKET

WATER-BASED TOPCOAT FOR EXTERIORS

HYDROPLUS AZ38**/XX

AZ38**/XX is a translucent exterior topcoat available in the most common shades: 00 Clear, 85 Larch, and 89 Teak.

Available gloss level: 20 and 30 gloss all colours; 60 gloss only colour 85.

Shade 00 Clear can be tinted using XA4034/XX tinting paste series to achieve darker shades.

AZ38**/XX is a versatile exterior lacquer suitable for all spray applications. It can be applied in thick layers, even on vertical surfaces, without sagging.

For optimal exterior performance, AZ38**/XX is recommended for use in combination with Hydroplus exterior stains and exterior sealers.

Normative Reference:

In accordance with EN 927, AZ38**/XX, like all Sayerlack exterior products, has been extensively tested following the relevant standards for coatings and coating systems for wood exposed to outdoor conditions.

In particular, the product has been tested for:

- Natural weathering (EN 927-3)
- Artificial weathering (EN 927-6)
- Water permeability (EN 927-5)

Based on the results of these tests, AZ38**/XX is suitable for the coating of windows and joinery, in compliance with EN 927-2.

TECHNICAL FEATURES

SEGMENT OF USE	Building products, windows
APPLICATION	Spray
SUBSTRATE	Wood already treated with exterior stain and primer
