

NEW CONVERTER
HYDROPLUS AZ98/XX**

AZ98/XX**

APPLICATION VERSATILITY

GOOD DURABILITY

ABSENCE OF BLOCKING

COMPETITIVENESS ON THE MARKET

NEW CONVERTER HYDROPLUS AZ98**/XX

Pigmentable topcoat converter for exteriors, available in the NN/BB versions, designed for wooden frames and products in an outdoor environment, and as a base for the outdoor water-based tinting system..

Specific characteristics of the product are the absence of "blocking" phenomena, the application versatility and durability, thanks to the elasticity of the applied film. It has thixotropic properties and can therefore also be applied vertically with higher thicknesses without the risk of sagging..

Possibility of reproducing any customized color through the Sayerlack tinting system. **AZ98**/NN** is a converter for full colour options for use with water-based pastes of the **XA2006/XX** series; **AZ98**/BB** is a converter for light colours that can be used both as a white finish or mixed with **XA2006/XX** pastes to reproduce colour on demand.

The product is available in the 15, 30 and 60 gloss; meeting the full scope of the market needs, making it a complete solution for lacquering window frames.
