# BIO RENEWABLE WB SELF-SEALER FOR FLOORING AF60\*\*/A0

Sayerlack introduces the new clear waterbased self-sealer especially formulated for parquet floors.

**AF60\*\*/A0** is the new two-pack topcoat designed for applications on parquet flooring, where elasticity, hardness, abrasion and chemical resistances are essential.

It is easy to apply, as well as to touch-up and maintain.

The application by spray guarantees a great adhesion between coats. The application by roller and brush shows excellent defoaming properties.

The floor is ready to be stepped on already the day after it has been coated.

We carry on our project aimed to reduce the impact on environment, and AF60\*\*/A0 is an example of that. A specialized laboratory of analysis has calculated, with the C-14 dating method, that it contains 24% Biobased Carbon: this indicates the percentage of carbon not from fossil but from vegetables sources, without impact on human food chain.

The special formulation of this product allows to not have risks phrases in the label.

PRODUCT SPECIFICATION TABLE		
VERSIONS	5, 20, 30 and 50 gloss	
APPLICATION	Spray, brush, roller	
HARDENER	AH1547/00 10%	
DRYING	80 g/m <sup>2</sup> at 20°C	Dust free: 30 minutes
		Touch dry: 1 hour
		Sandable: 4-6 hours
		Foot traffic: 24 hours
