

# HYDROPLUS CLEAR WATERBORNE SELF-SEALER BY SPRAY

READY TO USE

GOOD THIXOTROPY

GOOD TRANSPARENCY

AFL3724/00

# HYDROPLUS CLEAR WATERBORNE SELF-SEALER BY SPRAY

**AFL3724/00** is a clear 15 gloss waterborne self-sealer characterized by good levelling and pore marking, high smoothness and transparency, but also high tixotrophy.

For all this reasons we can consider it as a real general use self-sealer. The beauty of flat panels or kitchen cabinets, as well as of those items with a complex geometry - such as turned parts or chairs - is enhanced with excellent results.

It's also possible to obtain a good open pore effect on woods like oak or ash by applying 2 coats of 100-120 g/m<sup>2</sup> each.

TECHNICAL CHARACTERISTICS		
APPLICATION	Conventional, airmix, airless, electrostatic spray gun	
DRYING TIME (50 g/m <sup>2</sup> at 20°C, relative humidity 40-65%)	Touch dry	45'
	Sandable	3 h
	Overcoatable	8 h
FORCED DRYING (100-120 g/m <sup>2</sup> )	Flash off	5'
	Warm air	30'
	Cooling	5'
THINNING	Ready to use	
AREA OF USE	Assembled and flat furniture
