NEW ACRYLIC PU MATT SAYERLACK CONVERTER TZ39**/XX

Sayerlack **TZ39**/XX** two-component acrylic converter for the production of custom lacquered topcoats. Available in white and transparent in 5-10-25 gloss opacities, it can be applied by cup and airless spray, by robot. Dedicated to the interior design sector, doors, furniture, kitchens, where the demand for acrylic solutions increases above all driven by the needs of design. **TZ39**/XX** is the non-yellowing solution, stable over time, to reproduce all colours.

Acrylic system fully compatible with PU pastes, therefore with the tinting system, to achieve a more

versatile and competitive tinting range, able to satisfy every need.

TZ39/XX** is an acrylic converter which perfects the reliability of the TP2009/XX tintometric system by improving aesthetic and performance results such as distension, homogeneity of the opaque surfacing on the surface, pore cutting.

Good flow, coverage and softness. High pot life.

Born above all to offer an effective acrylic tintometric solution to all users of automatic dispensers.
